

General Education Online Passes 5 million hits / First Interview Conducted

The Internet (2003-03-17)

General Education Online passed 5.25 million grand total website hits recently, as the site continues to grow at an astonishing rate. During 2002, the most recent full set of statistics available, General Education Online experienced over 50 % growth in most key categories, with 20 % growth for unique visitors to the website.

Although statistics for the first quarter of 2003 won't be available until early April, analysis of current statistics indicate that GEO is on track for its goal of 2.5 million website hits and 500,000 visitors.

Michael Viron's first interview concerning GEO was conducted on March 8, 2003 by FreeMatrix Radio (formerly Freenode Radio)
